

TERSIA KING LEARNING ACADEMY HIGH SCHOOL

Offering a safe and secure school environment since 1991

The Tersia King Learning Academy (TKLA) was established in 1991 and is accredited to the Umalusi Council. The Academy offers education from Grade RR to Grade 12. We strive to be an institution of excellence, yielding inspired, highly competent, skilled citizens of South Africa. We continuously strive to ensure that our learners are afforded every opportunity for further enrichment beyond the standard curriculum.

At TKLA High School we offer a unique and robust learning community with the rich academic and co-curricular opportunities of a comprehensive high school intertwined with the personal connections and community support of our Small Learning Communities.

TERSIA KING LEARNING ACADEMY HIGH SCHOOL (Grade 7-12)

- Computer Application Technology lab
- Science lab
- STEM – our Lego / Robotics programme, which is part of Technology and develops critical thinking processes and installs self-discipline.
- We use English Home Language for teaching and learning in all grades
- We offer the following FET Steams: Science, Commerce and General
- Stimulus Maksima – our individualized reading programme, which assists with comprehension, spelling and fluency.
- Throughout the year soccer, athletics, netball, volley ball and chess are played at school and will be offered as an extramural activity in the afternoons. Our learners also participate in choir, debate, public speaking and the Kempton Park Eisteddfod.

True to our motto, Preparing learners for Life, the philosophy of the High School is to effectively prepare each learner for the challenges and opportunities that they will face after school. Academics always come first, but focus is also placed on cultural, sport and other enrichment activities.
